

Tires

Americans throw out more than 250 million tires every year – about one tire for every person

The state of Minnesota acknowledges old tires as a concern. There is a law in Minnesota which limits the number of tires owned by one household to 50. Tire businesses may have up to 500 waste tires without a permit from MPCA. It is also unlawful to burn unwanted tires or to dispose of them in road ditches.

Tire Disposal Options:

Faribault County Clean up Days	Held in the summer months in Faribault County	Call (507) 238-3115 or toll free (888) 783-3110 for information
Many stores which sell tires also take tires from customers	On-going	Contact tire stores for details
